Messrs. Chikka Ramanna, Girmaji Rao, Byre Gowda, and Gidde Gowda, Kolar taluk.

*Summary of Representation.*—By looking into the Excise Schedule of the Kolar district for the year 1911-12, it is clear that the consumption during the year is 89,237 gallons. The margin of profit allowed is 12 annas 10 pies per gallon and hence the contractors' net income is Rs. 71,575-8-0. The rental of the shops comes to Rs. 1,24,207-12-0. The difference of Rs. 52,632-4-0 has to be made up by the contractors. Many respectable families have been ruined owing to unhealthy competition at the annual sales. A committee may be formed consisting of officials and non-officials to make enquiries as to how many families have been ruined and whether the present system of selling shops by public auction by Government is a sure sign of improving the economic and financial condition of His Highness' subjects.

A school building for Kadaba.

Mr. K. Ramanuja Iyengar, Gubbi taluk.

*Summary of Representation.*—The question of constructing a separate building for the boys of the Wesleyan Mission Vernacular school at Kadaba is being repeatedly brought before the Representative Assembly, as the present building is a low roofed one having no accommodation to young children and situated in an insanitary place. A spacious building with a good maidan for physical exercise and sports is urgently needed at Kadaba.
